## SPECS

|                           |                                                      |
|---------------------------|------------------------------------------------------|
| Dimensions                | 0.31" (8mm) WIDTH * 0.079" (2.0mm) HEIGHT            |
| Operating temperature     | -13°F to 113°F                                       |
| IP Rating                 | IP20 Indoor                                          |
| Pre-soldered leader cable | 6' (included)                                        |
| Lumens available          | 200, 400, 600                                        |
| CRI                       | 90+                                                  |
| Binning                   | Single                                               |
| Warranty                  | 5 years                                              |
| Input voltage             | 24V DC                                               |
| Diodes per ft             | 146                                                  |
| Field cuttable            | Yes every 1.96" (50mm)                               |
| Beam Angle                | 180°                                                 |
| Dimming                   | 0-10V , ELV                                          |
| SDCM                      | <3                                                   |
| Bend radius               | Only Vertical, minimum bending no greater than 0.39" |
